What is claimed is:

1.   A method for printing a computer generated report including a header section presenting a first set of information, a parts sections listing one or more line items, and a footer section presenting a second set of information, said method comprising:

printing a first report page including

the header section,

a first parts subsection listing a first quantity of line items, said first quantity being less than or equal to a first number, and

the footer section; and

printing a second report page when a total quantity of line items listed in the parts section exceeds said first number, said second page including

a header subsection presenting a portion of the first set of information,

a second parts subsection listing a second quantity of line items, said second quantity being less than or equal to a second number, and

a footer subsection presenting a portion of the second set of information.

2.   The method of claim 1, further comprising:

printing a third report page when a total quantity of line items listed in the parts section exceeds a summation of said first number and said second number, said third page including

said header subsection,

a third parts subsection listing a third quantity of line items, said third quantity being less than or equal to said second number, and

said footer subsection.

3.   A system for printing a computer generated report including a header section presenting a first set of information, a parts sections listing one or more line items, and a footer section presenting a second set of information, said system comprising:

5   a first print means for printing a first report page including

the header section,

a first parts subsection listing a first quantity of line items, said first quantity being less than or equal to a first number, and

the footer section; and

10   a second print means for printing a second report page when a total quantity of line items listed in the parts section exceeds said first number, said second page including

a header subsection presenting a portion of the first set of information,

15   a second parts subsection listing a second quantity of line items, said second quantity being less than or equal to a second number, and

a footer subsection presenting a portion of the second set of information.

20   4.   The system of claim 3, further comprising:

a third print means for printing a third report page when a total quantity of line items listed in the parts section exceeds a summation of said first number and said second number, said third page including

said header subsection,

25   a third parts subsection listing a third quantity of line items, said third quantity being less than or equal to said second number, and

said footer subsection.

5.   A computer program product in a computer readable medium for printing a computer generated report including a header section presenting a first set of information, a parts sections listing one or more line items, and a footer section presenting a second set of information, said computer program

5   product comprising:

a first computer readable code for printing a first report page including

the header section,

a first parts subsection listing a first quantity of line items, said

10   first quantity being less than or equal to a first number, and

the footer section; and

a second computer readable code for printing a second report page when a total quantity of line items listed in the parts section exceeds said first number, said second page including

15   a header subsection presenting a portion of the first set of information,

a second parts subsection listing a second quantity of line items, said second quantity being less than or equal to a second number, and

a footer subsection presenting a portion of the second set of

20   information.

6.   The computer program product of claim 5, further comprising:

a third computer readable code for printing a third report page when a total quantity of line items listed in the parts section exceeds a summation of

25   said first number and said second number, said third page including

said header subsection,

a third parts subsection listing a third quantity of line items, said third quantity being less than or equal to said second number, and

said footer subsection.
